Things to be aware of :-

This layout is working on the understanding that besides the standing or seating area, the only other item inside the marquee is either the bar or stage.

If you require both a bar and stage, or additional items such as dance floor or buffet area this will require a larger marquee to accommodate the same number of guests. Please ask for details.

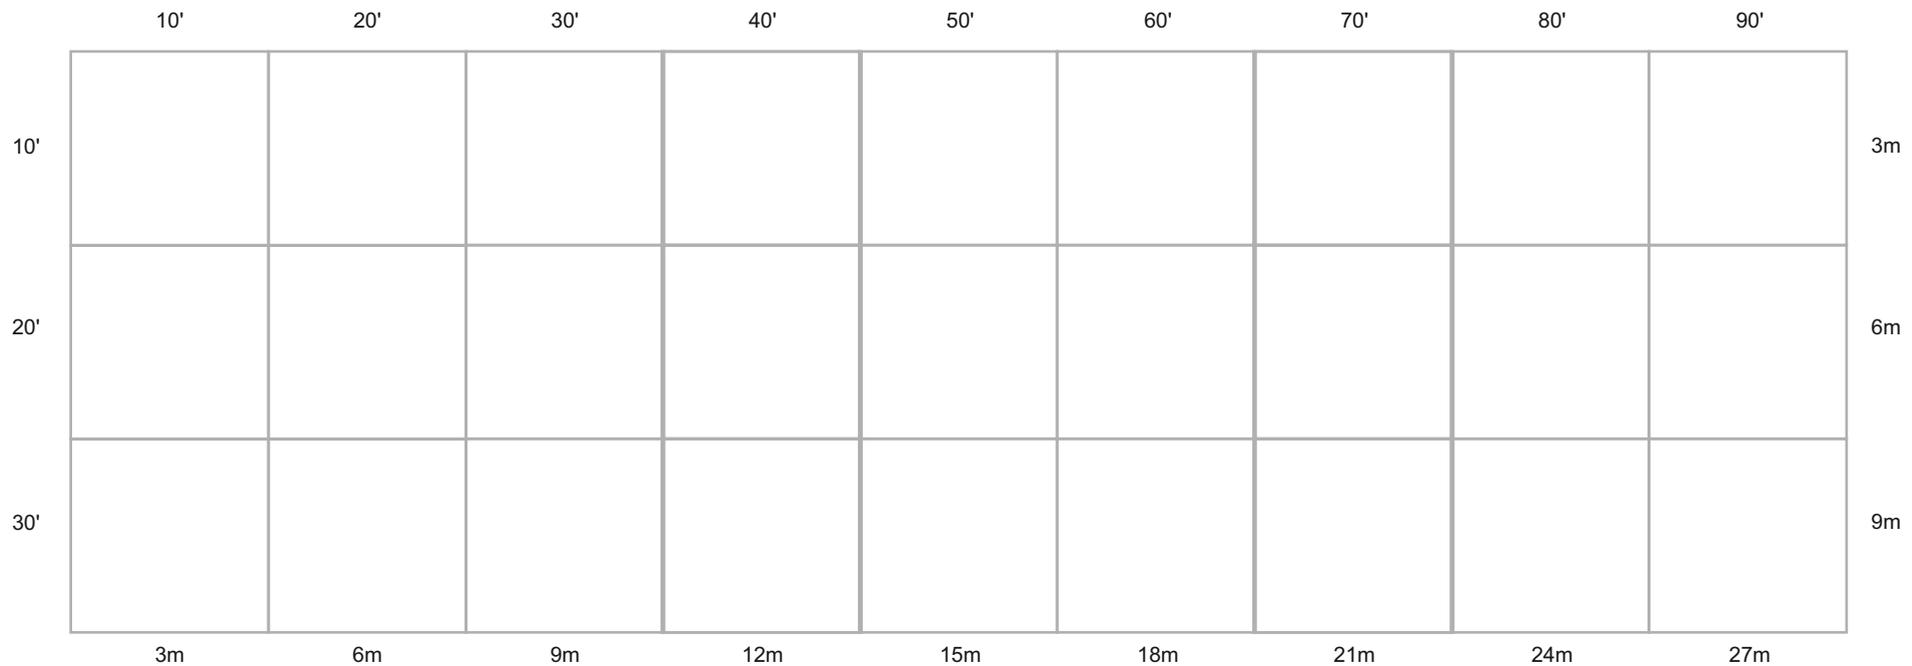

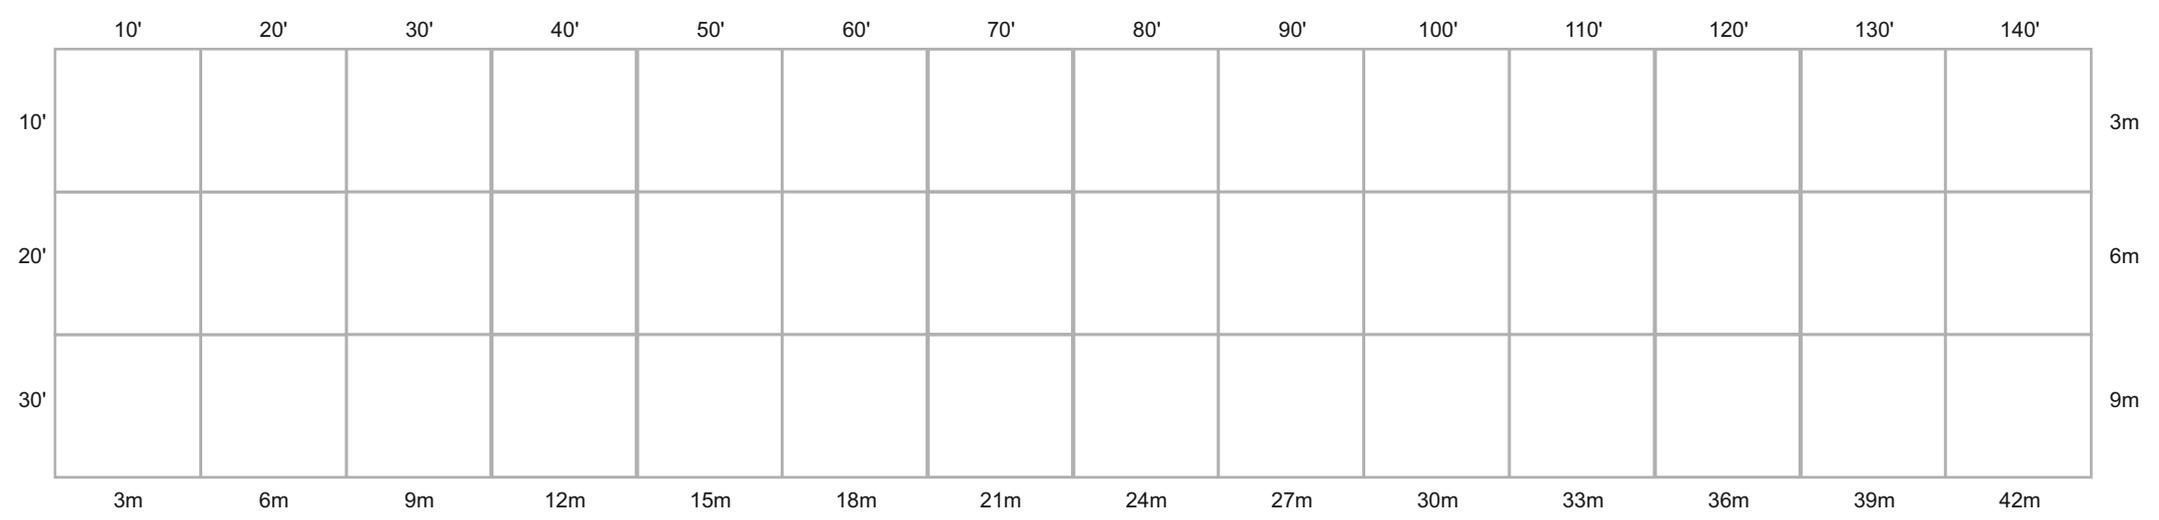

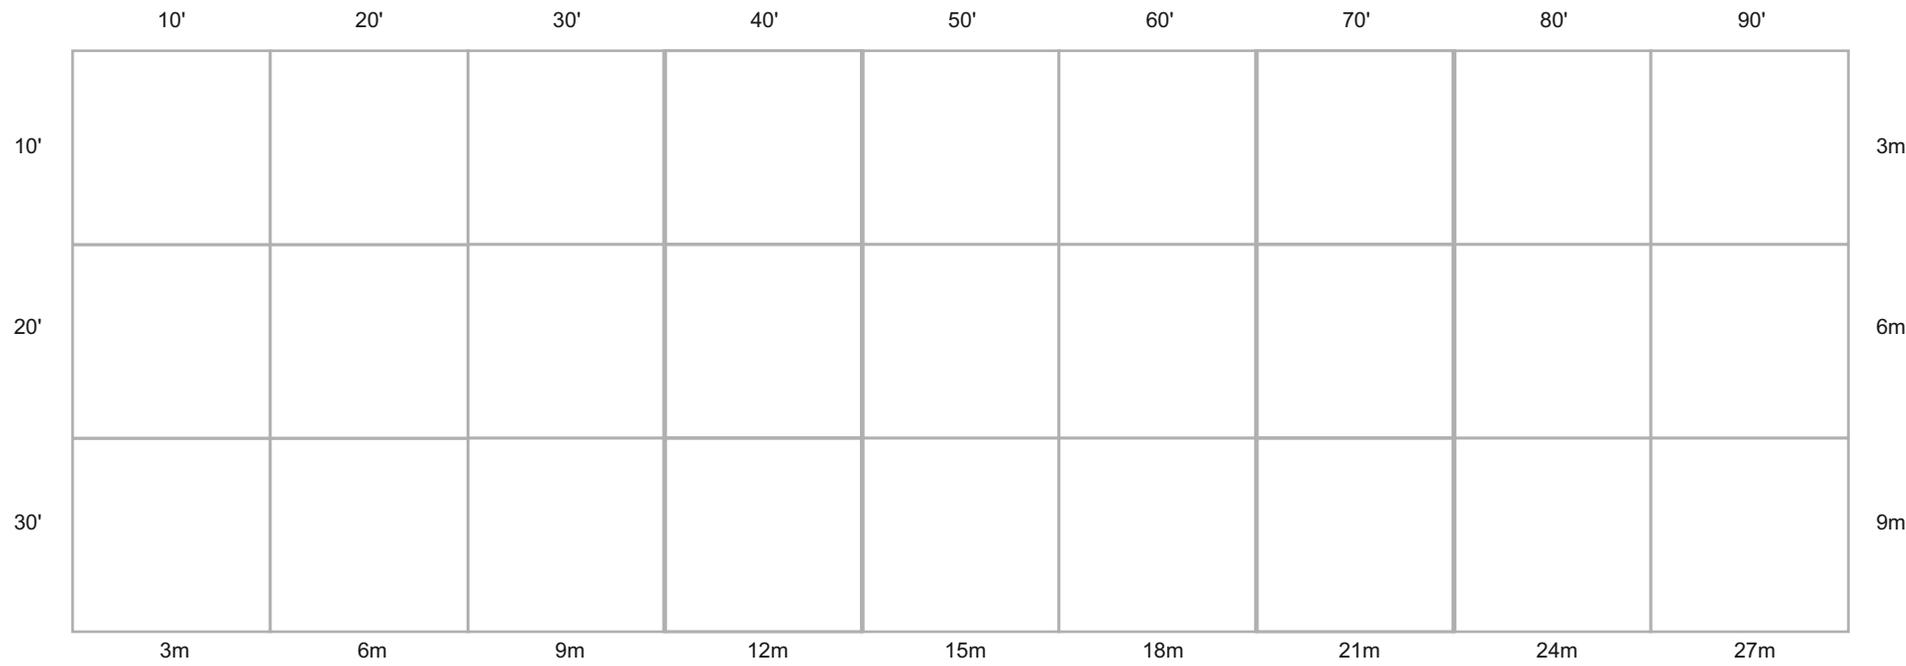

Design Your Own Seating Plan / Layout

- 1) It is best to position the Dancefloor, Band, DJ, Bar and Buffet tables BEFORE the Standing and Seating areas.
- 2) Even if you are have seating for all the guests, you would still require some standing area.
- 3) Each square gives room for a round table seating 8 - 10 guests, or standing for 10 - 15 guests.
