

Tailored to your precise wishes

Included in the service is the option to meet us, to discuss your reception in detail. This provides us with the opportunity to listen to you and find out what you want. We will only then offer some advice and suggestions; almost every aspect of our services can be tailored to your needs.

All couples get unlimited access to our on-line Event Planning Tools. Here you can manage most aspects of your special day. A guest Song Request list can also be set up, enabling your friends and family to dedicate those songs that mean the most to you or them.

*"Their service never faltered...
On the day they surpassed our
expectations and helped make the day
so special"*
