Exclusive wedding photography

The story of your wedding day, your memories captured. We have four options to choose from, depending on your requirements.

Option 1: Destination wedding from £ 4000.00

Option 2: Full Day Premium £ 2600.00

Option 3: Full Day Standard £ 1950.00

Option 4: Half Day £ 1700.00

We have an inclusive area of 50miles from our location (PO6 1AL) which is included in the above wedding photography options 2-4. For locations/venues outside of this area, please get in contact with us so we can quote you for travel to your venue/destination.

For destination weddings abroad and multi-day weddings here in the UK, please get in contact to discuss your plans. Each destination/location/country will have specific requirements and we tailor each request on an individual basis and supply a detailed cost breakdown.

Please continue to the next page for a detailed explanation of each of the above **Options**.

Option 1: Destination (or UK based multi-day weddings) is for those of you jetting off abroad who wish to have us accompany you to capture your memories, rather than entrusting to a local photographer at your destination. Typically captured by 2x photographers to maximise your story. *Note: price does not include travel/accommodation so please contact us to discuss this as we quote on an individual basis depending on each couple's requirements.*

Option 2: Full Day Premium with up to 12hrs wedding day coverage capturing the story of your amazing day. Full Day Premium also includes the following additional benefits:

*a location portrait/engagement shoot + Image Box (see contents page on where to find out about this box of mounted prints, or keep scrolling down)

*2x week turnaround (fast-track) with your Wedding Collection edit.

*a £200 gift voucher to use toward any of our Wall Art products.

Option 3: Full Day Standard with up to 12hrs wedding day coverage capturing the story of your wonderful day and 4-6 week turnaround for your Wedding Collection edit.

Option 4: Half day with up to 6hrs wedding day coverage and 4-6week turnaround for your Wedding Collection edit.

Options 2 & 3 can request an additional photographer to help maximise the telling of your story. A nominal fee of £250 will include a second photographer attending for the full day. This option is particularly useful when a couple are getting ready in different locations or the guest list is extensive.

Each of our **Options** also include a GraphiStudio A4 album containing 50x images plus a custom USB containing your entire Wedding Collection and an online gallery to share with friends and family. We have a full range of additional album upgrade options should this be of interest. See album pages below for options/prices.

Arse-kicking Incentive (Aki)

To help streamline our work flow more efficiently throughout the year, we offer a 15% discount on all products/upgrades if ordered within 4 weeks of viewing your Wedding Collection (here in person or online) and due to the nature of album designing and printing, we can also split up the payments, if required, into a maximum of 4x instalment payments. Bit of a cheeky name I know, but purposely memorable to remind you!

Portraiture Photography

Creative portraiture on location

Shot on location, this could be at your private residence or at a location of your choice. Great for capturing children playing naturally, or families taking a stroll through your local woods or along our beaches- a moment in a life recorded. Perfect also for recently engaged couples who wish to capture the moment and create memories at the start of their journey together.

We always prefer to choose a location that is meaningful to a couple or family and discussing options is something we recommend.

Each portrait session typically lasts 1-2hrs and you have a choice of options available:

*Location portrait session + Image Box with 10 mounted prints £ 450.00

*Location portrait session + GoBook with 20 images + USB £ 550.00

*Location portrait session + 24" Framed canvas print + USB £ 600.00

*Location portrait session + print package (5x 10x8" prints in mounts) £ 200.00

*when within a 25mile radius of PO6 1AL

image presentation from our range of stunning albums and books

Our Album and Book ranges

Digital albums are a commonplace style of album these days and were introduced to the market by Graphistudio two decades ago. They have completely revolutionised the industry over the past decade. Ours contain flush mounted pages which can be printed on various paper types from metallic photographic paper through to fine art papers. This creates stunning single image portrait and family albums or portfolios, and the more widely seen magazine style layouts for wedding albums and corporate books. The pages are only creased at the spine, meaning the print runs the entire width of the book giving dramatic lay-flat panoramic pages.

To complement our range of albums, we have our Primo Book. These are distinctly different to the albums in both visual presentation and layout. Whereas the albums use lay-flat page technology, the books are bound using traditional binding methods to create an actual hardback book; think coffee table art book if you like.

Internal image layout designs on all of our albums and books are created in-house by us for each client, so these are completely unique creations. We can design the albums and books to our client's wedding day using their colours, fonts and themes to create a personal album unique to each couple. All of our albums and books are handmade in Italy to the very highest of standards.

Our Italian album supplier GraphiStudio is the industry leader and used by some of the most highly decorated photographers in the world. We are immensely proud to be associated with GraphiStudio and to receive an invitation to join their prestigious list of photographers. Any legitimate professional photographer can apply to use GraphiStudio, but we were actually invited by them to join their ranks; not something I shout about, but something I'm rather proud of.

All of our photography **Options** in the previous pages, include a GraphiStudio A4 album with 50 images and we have additional album upgrade options in the following pages should something a touch more personal and exquisite be more to your taste.

The Young Collection

Here we have **The Young Collection**. Simple, stylish, elegant...

The **Duet Concept** album is custom made by our wonderful Italian album supplier Graphistudio. Although not one of their official album options, GraphiStudio agreed to custom make these for us. Not every photographer receives privileges like this!

The Duet Conception

Our story concept for this album range was to, "tell the story of their day and present it to them in a completely new format, whilst still allowing maximum personalisation and timeless appeal"

The **Duet Concept** album set comprises of a Design Box which contains two albums; an A3 Primo Book on top, which is lifted out to reveal an A4 Young album underneath. Our display Duet here at CSiHQ features the Primo Book being 'The Story' telling of the entire day and the Young Album being 'The Collection' of just the bride & groom, but the two albums can be themed however you wish.

Choose from a myriad of cover materials, linings, raised varnishes, foils, paper types and ennoblements to fully personalise this to you and your day.

We offer our Image Boxes with three quantities and we can theme the exterior, interior and printed paper type to suit a client's wedding album using our extensive personalisation option range or designed as a standalone single product on its own.

Canvas Panels.

Our **Canvas Panels** are printed on fine art quality canvas and stretched around museum quality, artist stretcher bars- these being high quality, kiln dried, knot free pine, which has the advantage of being very light, yet extremely hard wearing and not susceptible to warping like standard pine or other softwoods used on cheap imitations. Our stretcher bars also incorporate corner wedges which allow the canvas to be stretched very tautly over its frame. It also allows the canvas to be re-stretched over time, which can be of particular importance for our larger sizes. With the exception of our Super-size Panels, all of our **Canvas Panels** are supplied mounted into a floating frame to enhance the presentation and to create a stunning piece to hang on your home or office wall. The wooden floating frames are available in a white, black or natural wood finish.
