Our Beginning

New Beginnings Bridal was born from the experiences the owner, Rhian and her Mum,

Gail, received whilst wedding dress shopping.

They felt that the way many boutiques were run was outdated and could be inaccessible to most brides; whether that was due to expensive dresses, small sample sizes or just plain, bad service.

New Beginnings Bridal opened in April 2018, initially selling ex-sample dresses, and expanded in September 2018 into made to order.

We are family run and place a very high importance on customer service.

We are proud to be multi-award winners and a 5 star rating across all review sites.

We carefully select our designers for their quality, design, structure and price. By doing so, we can bring you amazing quality, designer dresses and accessories for less than your expect.

We stock stunning, fresh and unique designs, so you have something special and completely 'you' for your special day.

Hints and Tips for a Successful Appointment!

1. Research!

Search Pinterest, Google and any other place you can think of for wedding inspiration! What dresses catch your eye? What colours do you want? Are you having fully formal or a boho beach wedding? You might not believe it, but all this helps when finding your wedding dress!

2. Set your budget!

Once you have an idea of the styles you think you may like, set a budget you are comfortable spending. If you don't have any idea, get in contact with some boutiques and ask them for their average price or even prices of specific dresses they sell.

3. Have an open mind!

When it comes to your appointment, make sure you stay open to ideas. You may think you want a bright white, princess ballgown with all the sparkle and lace, but you might end up falling in love with a blush satin, mermaid!

4. Trust your consultant!

We know exactly how our dresses fit different body shapes and we are know just how to flatter all body shapes and sizes. You might be surprised by what you will love, if you trust your consultants opinion!

Silhouette Guide

It's important to remember that it's your shape that dictates what silhouette suits you, not your size!

Ballgown

Flares from the hips with a very full skirt

Sheath

Fitted style with a straight falling skirt

Mermaid

Fitted style with varying amounts of flare at the bottom

Tea Length

Vintage style, usually with a full skirt and petticoat

Fit and Flare

A Line

Flares from the hip in a more subtle way than a ballgown. Fullness of skirt can vary.

Frequently Asked Questions

Whats your price range?

Our dresses are handpicked to provide you with a huge choice of styles with exceptional quality for affordable prices!

Our bridal prices start at just £150 and go up to £2000 and bridesmaid start at £70.

When should I order my dress?

Most of our dresses take 4 months to be made; however, some can be made quicker than that.

We also have a special range of dresses that can be ordered in just two weeks!

We would recommend starting your search around 12 months beforehand, and ideally no later than 6 months before.

Will the samples fit me?

The simple answer is YES!

Unlike most boutiques, we carry our samples in a bridal 18 and 24.

If you are smaller than this, some clipping and creative pinning shows you how the dress would fit, and if you're larger, the dress may not fasten but a little imagination goes a long way!

Frequently Asked Questions

What happens during my appointment?

When you arrive, you will be offered drinks and slippers
(which you can keep!).

We will then have a conversation about your search so far, your vision for your wedding, and what your dream dress is like.

If this is your very first appointment, we will try every silhouette so you can decide which you like the most, then start working through all other aspects of the dress, until we find The One!

What underwear should I wear?

Try to wear nude underwear and a strapless bra.

A lot of dresses have built in support so a bra may not be necessary, but we can discuss that during your appointment.

Feel free to bring your suck-in underwear!

And if you don't have nude underwear or a strapless bra, don't worry!

We can make anything work with a little creativity!
