

# Tips on "The Look"

Remember your eyes are the windows to your soul

Don't always look straight into the camera. When you cut your eyes to the left or right, you create an air of mystery. When you look up and away, you are annoyed. Tilt your chin slightly down and look straight ahead for a sexy look.

We can help you get the right expression...

A pose is much better with the "look" You should close your eyes, imagine a thought which makes you happy, open your eyes and sell that thought. "Click."
